

DID YOU KNOW

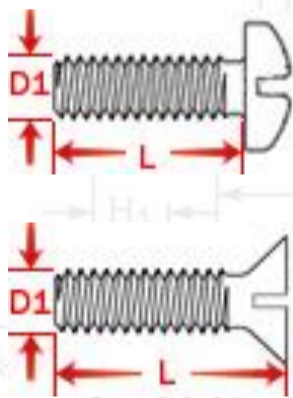

BASIC FASTENER MEASUREMENTS

Standard Fasteners are basically measured / specified by the nominal thread diameter (D1) x Nominal Length.

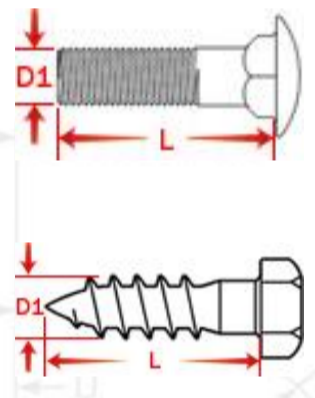

HEXAGON HEAD BOLTS/SET SCREWS

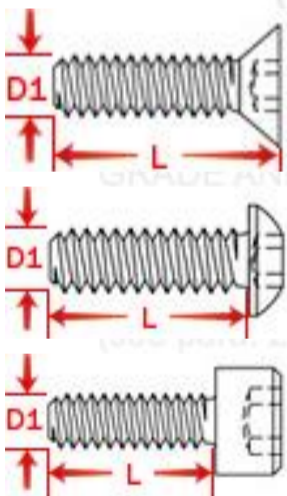

MACHINE SCREWS

CUP HEAD BOLT & COACH SCREWS

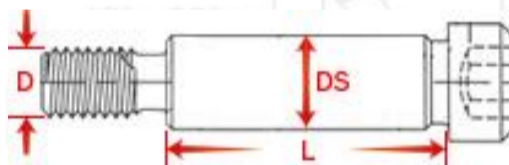

SOCKET SCREWS

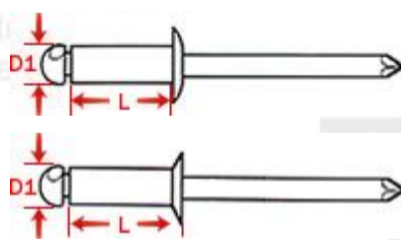

SOCKET SHOULDER SCREWS

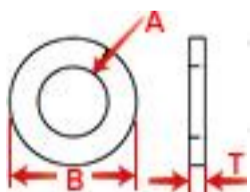

Shoulder Screws are measured/specified by the shoulder diameter (DS) X Shoulder Length (L).
To avoid doubt, it is better to also specify the thread detail (d) as well.
